

My CIRCLE DANCING Journey

1. We circle round with Rose and Lynne dancing all the way,
We dance with grace and gusto when we hear the music play,
Slip step here - slip step there, we'll get it right one day,
Sway to right - sway to left as we dance the hours away.
Happy when we meet again, smiles seen all around,
With grapevines, nappy walks and stamps, are you sure we're here to dance?
A partner dance we have to do in a mysterious Grand Chain,
How many people have I passed? I've got it wrong again!
2. We have our favourite dances and ones we'd rather not,
But we dance each one in laughter with friends who mean a lot.
We share our joys and sadness, bringing added blessings to our group,
As the seasons pass along the year, we celebrate throughout.
The demonstrations we are shown, but did we understand?
The music starts - here we go - we got it right - Hoorah!!
What is that our teachers say -they've put in another bit?
"In your head - count two quiet beats....**then loudly shout OLE!!**"
3. Calypso helps us dance the seas to find and view the Source.
We tell a Winter's Tale when Dancing in the Roses, of course.
We hear the Bells of Norwich then say our sweet refrain,
'May the Circle be open, but unbroken' until we meet again.
